Subject: Microsoft Settlement

You've wasted enough of my taxes on this outrageous trial. Please approve this settlement and save us further loss of precious dollars. You wouldn't even be receiving this email if it hadn't been for Bill Gates. He has saved so many people, companies and government agencies so much money by increasing their productivity with Personal Computer's and you have the audacity to cite him for poor business practice. Talk about biting the hand that feeds you!

Sincerely,

Sean L. Klope
Director of CIS Operations
Manufacturing Company in El Cajon, CA
